OPTIONS

PLAYlive Nation offers two different options to obtain your financial goal

Community Fundraiser

Your group sells 1-hour play passes to people in your community which allow buyers to play in their local store any time they wish. You keep 60% of total revenue earned.

Fundraiser Event

Host an event in a PLAYlive Nation location at a scheduled date & time. Choose between these two types:

Revenue Sharing: You bring people in, we handle ticket sales. The proceeds are split with your group 60/40, with 60% going to your group. This is great low-risk option that require no up-front investment.

Store Reservation: if you expect a large turnout, then you can rent the whole store for a flat discounted rate and keep all revenue from ticket sales. This option relies on a higher turnout but can yield more revenue overall.
